CubeRoot
Business network solutions
and the customer support to back them up!

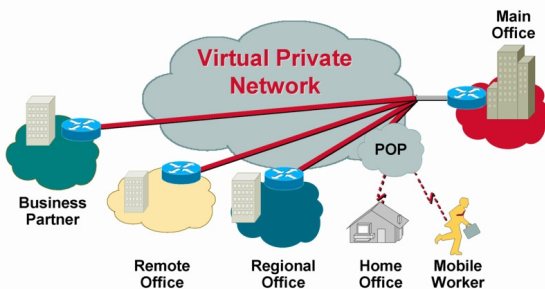

Unlock the power of your business using IT

At CubeRoot we can offer our customers an impressive range of networking and telephony products from some of the worlds leading manufacturers and at a price you can afford. Our solutions encompass the whole range of networking requirements, from infrastructure design and installation, to servers and desktop application role out. Whether your requirement is to add new functionality, hardware or an application, CubeRoot can provide the solution. Our home / remote worker and multisite VPN

solutions provide your key staff with the flexibility to work anywhere and still remain in contact, an important competitive advantage in today's market place.

What Is a VPN?

Connectivity Deployed using the Public Internet with the Same Security and 'Performance' as a Private Network

At CubeRoot our philosophy is simple; provide the customer with a network that drives greater employee productivity, supports innovative services, improves customer satisfaction, and reduces operating costs. We also offer a network speed up and optimisation service and a range of flexible maintenance contracts tailored to suit your company. Our team will ensure that your projects are completed on time and to your complete

satisfaction, listen to what our customers say:

CubeRoot did an excellent job and the support is always there when I need it.

Chris White MD JCL Services.

The staff at CubeRoot are always prompt and very attentive.

Paul Howkins Camtec Electronics Ltd.
